

## PHA HIGH POWER MATCH RESULTS 24 SEPTEMBER 2022

Our match was held Sat, 24 September and the weather was great. We again finished about 1100 and had everything put up by 1130 or so.

We had 7 competitors including Joe Coyle's neighbor Lawson Cherry who shot his first match as a junior last month and continues to improve and learn to be a better marksman. We also had a New Shooter, Russell Gentry, who attended his first ever match and had participated in our July High Power Clinic with Lawson. Russell shot well for his first match especially considering he was using a scope and hadn't had time to get a good zero yet. There are a lot of things to throw at new competitors in a match that don't happen in practice and having to establish a good zero during a match is tough along with timing and position. I know we'll see Lawson and Russell improving as they get more matches behind them.

Travis Rushing was the overall winner with a 487-14 and Wayne Hemphill was second with a 478-15. Congratulations to both.

Our next and last NRA match for this year will be Sat, 22 October 2022.

Thank you to all competitors for set up, break down, and helping to run a smooth match.

Wayne and Neil
